Rules for Individual Classes:

Class 1: Extracted Honey

Extracted honey is judged in three subclasses for Adults as well as Youth classes: (a) light, (b) medium or amber, and (c) dark. (d) Youth will be divided into Cloverbud (5-8), Junior (9-13) and Senior (14-17). Youth may be further subdivided into Light, Amber, & Dark classes, depending on the number of entries. Entrants may submit one entry in each of these three classes. One entry of extracted honey is defined as two (2) one-pound jars. All forms of extracted honey are to be presented in one-pound, glass (no plastic), "Queen-line" or "Classic" style jars. Closures may be of metal or plastic. Tamper-proof seals are prohibited. There shall be no labels on the jars. Judges evaluate entries on the following: Cleanliness of the jar and lid; Correct fill level; Uniformity of the two jars that comprise the entry; Cleanliness and clarity of the honey; Moisture content; and aroma and flavor (for off aromas and or flavors). Contact Jeremy @ Abingdon Bee Company 276-492-5369 if you need to purchase jars at cost for the competition.

Class 2: Chunk Comb Honey

One entry of chunk honey is defined as two (2) 1-pound jars. Chunk honey must be displayed in straight sided, glass, wide mouth, jars. The glass should not be embossed. Only one chunk of comb should be in each jar for competition. The chunk of comb must be in one piece, with a straight mid rib and of uniform thickness. The cuts should be clean and uniform. The chunk comb should be cut and sized to appropriately fit the container. Honey should fill the rest of the jar to the appropriate fill line. The comb should be oriented in the container as found naturally in the hive. Comb with watery cappings should be avoided. The comb should extend the length of the jar. Comb is judged for equal amounts on either side of the center rib. The criteria stated above for judging extracted honey applies to judging chunk honey as well. Contact Jeremy @ Abingdon Bee Company 276-492-5369 if you need to purchase jars at cost for the competition.

Class 3: Full Frame Comb Honey

An entry of full frame comb honey is one (1) frame of capped honey suitable for radial or tangential mechanical extraction. Frames must be shown in protective casing without lacing or edging and both sides of the comb should be visible.

Judging criteria are completeness of capping, uniformity of appearance and color (including the honey in the comb), cleanliness, absence of uncapped or leaking cells, no "wet" cell appearance, freedom from granulation and pollen, and symmetry throughout the frame. Total weight of the entire entry may be used as a tiebreaker. Contact Jeremy @ Abingdon Bee Company 276-492-5369 for assistance with shrink wrapping your entry.

Class 4: Beeswax Block

An entry consists of one (1) block of pure beeswax. The block must weigh between one to two pounds, no more, and should have thickness no greater than 1.5 inches. The wax should be clean, and free of impurities. The block should be smooth-surfaced and free of blemishes, decorations or embellishments. Preferable color should be lemon yellow with a pleasant fragrance. The block should be submitted on a plain, white paper plate, in a zip-top bag. Alternatively, at the Exhibitor's option, the block may be shown in a protective display case. If a showcase is used, it must not exceed 12"(length) x12"(width) x4"(depth), and the wax block must be readily accessible for judging. The show case will not be judged.

All entries in this category must be made from the following recipe contributed by Mrs. Kenton Chittum.

2 tablespoons shortening	1 cup scalded milk
1 cup boiling water	1 yeast cake softened in
2 tablespoons sugar	¼ cup lukewarm water
2 teaspoons salt	6 to 6½ cups all-purpose bread flour

Put shortening, sugar and salt in a large bowl without a lid, or in top of large double broiler. Add liquids. Cool to lukewarm. Add yeast. Stir in 3 cups of flour. Mix thoroughly. Add 2 cups of flour, mix and add remaining flour gradually, using just enough to prevent sticking to the bowl.

Put the last ½ cup of flour on the mixing board or cloth and use some of it to dust the board very lightly, pushing the rest aside to work into the dough, if you need it. Turn the ball of dough out onto the board, leaving a clean bowl. Cover and let “rest” 10 minutes, which makes the dough easier to work with.

Knead, let rise, punch down and shape. Let rise until double in bulk (about one hour) and bake. Bake at 375° for 15 minutes and lower oven temperature to 350° and continue baking for 25 to 30 minutes. Your loaf should have a hollow sound when “plunked” on the top.

Beat until smooth. Add the rest of the flour, mixing well. Place dough in greased bowl and brush top with soft margarine. Cover tightly with waxed paper or aluminum foil.

Refrigerate until doubled in bulk or until needed (4 days). To use pinch down, cut off the amount of dough required and form favorite shapes.
